Marina is a New York-based Makeup Artist from Brooklyn.

Living in NY for over 30 years has given Marina the opportunity to pursue her dreams. With a background in Hair and Fashion Design, she always wanted to be a Makeup Artist. That dream led her to further her education and concentrate on developing her skills in the art of makeup.

From everyday looks to special events, Marina believes in “natural beauty.” As a Beauty Consultant, she teaches that *anyone* can feel great about how they look by using makeup to enhance their natural features. She feels that “a little goes a long way” in bringing out someone’s best features to reveal his/her natural beauty.

Each time Marina uses her talent as a Makeup Artist to make someone look—and *feel*—amazing, she knows she is in the right place. For Marina, there is nothing more rewarding than to know that she made someone feel wonderful about how they look.

Marina graduated with her NYS Cosmetology License from the Learning Institute for Beauty Sciences. She continued her journey by attending Chic Studios, where she completed the Art of Makeup Artistry. Chic Studios gave her additional professional skills and the opportunity to develop her style as an artist and know how to apply it in the real world.

As reflected on her resume, Marina has assisted other artists during NY fashion week, for TV, Music Videos, and commercial and editorial Photo Shoots. Currently she freelances and volunteers her free time for “Dress for Success.” She continues ongoing education by attending workshops and networking events, and is always eager for any opportunity to follow her passion.
